REPORT OF THE MAJORITY.

REPORT OF THE MAJORITY.

To the Common Council of New York:
The Committee to whom mas referred the Memorial of certain "Physicians of the City of New York" praying the removal of the present incumbent of the office of City Inspector, begiene to Report:

That they have examined the communication referred to them and find that its signors do not pretend to poss as any necessary and the committee of the station be occur, on make any representations respecting his fines or unities for the station be occur, on their own knawledge, but carefully premising "ins we pies, on their own knawledge, but carefully premising "ins we learn" and "ins we understand," gravely proceed on merce hears up information, to pet thou the Common Contail to revove an other whom this holy, on satisfactory recommendations, have within two o onthe, appointed to this very office.

Waving however, these obvious objections to the character

MOSES TUCKER.

This (adopted) report of a majority of a Committee appointed by the City Council of New York, demands a passing remark. It is not what an intelligent commonly had a right to expect from the guardians of the public health and the public weal of the most populous city in the western confusent. A large number of well known and highly respected gentlemen of the medical profession had resonstrated, for reasons worthy of most serious consideration, against the continuance in effect of an ion ividual whose official duties were intume ellipsonscript was accounted in improvement. tiar. They stood forth, not as advocates of a personal but of a general interest. Their modives were derived from a regard to the sanitry a condition of the city and not from party preju-dice or favor. They cared nothing for the political partiallatics or connections of the incumbent of the office. They had, there fore, the stroncest claim to a respectful hearing, and the matter of their memorial was werthy of a careful and thorough investigation. If such an investigation had been instituted, the comattee would have come to the conclusion either that the indi vidual ought to be removed, or if he had been found compe-tent, the community would have had in the facts elicited, an assurance that the public interests in regard to health, were

heir impartial discharge. No unbussed in elligent man, after near important meetings. No unbussed in chigent man, after reading this paragraph, can place confidence in any conclusion to which its authors may come. It marks them as partizans rather than judges,—as quibbelers about words rather than careful investigators of truth, as interested in the defences of a printing, for whose sake some two humined of the leading men in the medical profession are to be treated with studied con-

a speak of a public functionary—of his character or fitness out from personal knowledge 1—that none are to memorally be appointing power for his removal unless they have person nowledge of his defailentions or canactay 1—that none but we seek can be heard, when objecting to him? Is the whole can

surely be a matter of mortification to his friends that this Committee have been able to place him in no more envisible a light before the community.

The conclusion of this report impliedly admits a want of scientific acquimitance with the causes of disease, in the present City inspector, and that he is destitute of the advantages of a pulsahed and finished education. But what is most strange when emanating from a body that our at the bean enhightened one-from a body elected, as friends of general and therough education, is the sage conclusion arrived at, that the very want of these advantages, is a qualification escential to the serviceableness and efficiency of an older charged with the ence of the public health. Such an idea is worth the days and policy of Jack Cade, but we seriously great that in the middle of the numerous descential decreased and efficiency of the Commercial Metropolis of the numerous descential continuation. Against the commissioning of informatic to take charge of the health of a great City—against this narrow minded bigotry which would throw describt an education and science, with whatever official character such bigotry may be robed, we enterour solemn protest. It is an insult to the community. It bears on its face the semblance of discrediting knowledge, and paying homes to the Ada it is the sentence, which has thus found a mouth-piece in this Committee name of the pickage and symonity with the other. And it is the sentence, which has thus found a mouth-piece in this Committee, which has thus found a mouth-piece in this Committee, which has the found to be an encound of his appointments made by the present Common Council.

The Committee near the fields to produce disease, requires offitimes to common knowledge and neutron? A thorough a wellege of the segment City Impactor may be the best man, for auth we know to the contrary; Int they seen not to be aware that to decide whether a substance is, or is not an issue, that is, whether it is fieldly to produce disease, requires offitimes t

to be aware that to decide whether a substance is, or is not a manance, that is, whether it is likely to produce dresses, its quires offtimes to common knowledge and accurs it. Athorough knowledge of the sciences of Chemistry, Physology, Nationa Philosophy, &c., is essential to a just decision of many of the questions which come before an Officer of Heath, and without an experimental acquaintance with these subjects, be will offer find himself at fault, and the desiration of property under the prefence of public salety, by an order from an efficier grand, and catalis from to give a reason therefor, will be very unitarly to the roles of Science, which should guize his judgment, and catalis from to give a reason therefor, will be very unitarly to to the commonary whose safety lies in his official hands. If in speaking of a report on the "Philosophy of Disenses," the Committee intendest a sneer at the Report, made something more than a year since by the then City Inspector, and who was ree into a competitor for the office, it is in happy uniformity of fasts and intelligence with the other matters embraced in that document. The intelligent judgment of men learned in that document. The intelligent judgment of men learned in that good provides the subsense, their causes and remedies, and to public bygone, both in this country and in Europe, has put that gentleman's character too far beyone the reach of any Committee or cubic body with whom knowledge straids in so low repute. We will only add, that we consider the alignations of the Report alone, but if my thing more is desired to prove their truth, and to show whether the Public Health is in sufferior on not it will be found in the following.

MINORITY REPORT.

MINORITY REPORT.

The Minority of the Special Committee to whom was to ferred the memoral of Valentine Mot and others, Physicians of his City, asking for the removal of Eli Leavatt, the present City Isasector, respectfully report—
That they have considered the memoral, A majority of the Committee decided not to have any of the memoralists before them, to explain at greater length and to show the necessity of required the City Inspector to possess the amount and kind of requiring the City Inspector to possess the amount and kind of requiring the City Inspector to possess the amount and kind of requiring the City Inspector to possess the amount and kind of requiring the City Inspector to possess the amount and kind of requiring the city Inspector to possess the amount and kind of report by the present incumbent. This the memorialists certainly had a right to expect, but it was denied to them. The Committee then deherated upon the position taken in the memorial that City Inspector ought to possess good medical attainments, and should have a knowledge of the cut set of desawe and their remedies, as well as a general nequantaine with the sanitary regulations of other large cities. On this sulget the Committee were agreed. They were convinced that while many of the duties inprosed uson the City Inspector might be performed by one of ordinary capacity, set that many of the shortes requires a high degree of information, and of the knowledge of medicine and hyge-ene, such as a standard that while many of the shortest and Physicians or those who have made such knowledge ther study. While the Committee could not agree with the opinion often expressed that it is indispensible that such appointment should be held only by a regularly becamed Physician, set they would free by admit that, occasionally, some persons may be found who, by reading and observation, have obtained all the necessary knowledge above mentioned as requisite. But the Committee had no doubt that, occasionally, some persons may be found who, by reading and

The memorianes intract size, instancy continuary recent and received its not only extere y gravaria of nucleicae as a science, but, as w. u. deristand, is admitted by his friends to a science, but, as w. u. deristand, is admitted by his friends to a science, but, as w. u. deristand, is admitted by his friends to be too different to perform, with ordinary accoracy, the mere directed daties of his effect. This charge, so important as regards the spoor keeping of the records of this office. This charge, so important as regards the spoor keeping of the too far array character, it was agreed by the Committee into this matter, by examining the records of the office and such other ways as they might think proper. The omority of the Committee examined some of the books in the office exhibites to him by Mr. Leavitt, and found them the general recisery well kept, in a fair hand, and with general accuracy. With some reluctance, after saying that those were the only book belonging to the office, the book for of derivers and the said that none of these books were in his hundwriting. Attendamental accuracy, with the said that had been defined from him was new halas orders, or permits, with his name signed to them, which he said was his landwriting, and which was in a good style of pennoariship.—He was asked if he did not do any venture in the books or records of the office. He said hed not, it was done by his resistant and the clerk. He was then requested to furnish the Committee with any manuscribe of his withing, to enable them to judge of the truth or faisity of the charge required him. This he promised to do the next day—but on the earded for t, that by the advice of friends "the would stand upon his dignity and decline to furnish my information on the subject to the Committee; if they could find it out, they

might, but they should not from him." The Committee unamously regretted to see such a disposition manifested by a subordinate officer of this Board, attill they felt a desire to port as favorably to him as possible. They had no reason doubt, at that time, his good changeer for hencety and indi-

ad from office.
ectfully submitted.
EPHEN HASBROUCK, Chairman.

Of Journeymen Tallors.—At a meeting of the Journeymen Tailors of New York, it was resolved that the thanks of the meeting be conveyed to the independent Editors of the New York papers who noticed our orderly procession on Mooday.

Resolved, That the upprovoked and unjustifiable attack upon our Society in the Herald of Tuesday could only emanate from its unprincipled Editor who has already earned an unerwable motority by his continual onslanghts upon truth, honor and Justice; an immanly recreent of herbes for the defaultion of characters is irreproachable as his own is malignent and vile; nonfield at by men of honor as the unastree of society deadly, destructive and routingious, he still pursues his ignories counce with immunity. Having a character free by his chabolical regenuity to conduct "one of the vilest Journals, that ever discreased any country"—he remains a liber on heralture and a discrete to man. his grace to man. 124 R. Those Companies who intend joining in the es-

cort of the Hope Hose. Commany of Philadelphia on their de-porture from the city are requested to from in West Broadway this Afternoon, at 35 o clock. The members of Thirty-one's Commany are requested to meet at the Engine House at 3 5 clock prices y. 12 BBNJ. SYNES, Foreman.

"Hink the likeness above alluded to, of Mr. Clay, a very correct and excellent one."

(Signed) J. J. CRIFTENDEN, U. S. Senate.

The course beam made by the Daguerrostype process, are of course equally fathful with the original, and the likeness in this diminutive form is fully as striking as in the larger picture. The Pins will be small, charte and well made, warranted solid cold. As there will probably be an extensive demand for these there will be furnished at the very low urice of \$3.50 excl. them, they wil be furnished at the very low price of \$3 50 each

or at the rate of \$35 per dozen.

Should a particular style of Pin be desired by any Club, they can be got up at a few weeks' notice, and nothing more will be charged than the actual additional cost of the Pin.
Orders sent through any responsible New-York house
receive immediate attention.
THEODORE FRELINGHUYSEN.

THEODORE PRELIMENT ISSUE THE ASSESSED OF THE STREET OF THE

P.'s friends may be gathered from the following note:

Messra. Anthons. Educards & Co.;

GENTLEMEN: I have seen with pleasure your Daguerreo type picture of thon. Theodore Freimphaysea, and, from an equanitatione with him, can beat testimony to it excellence. The picture is taken in your usual admirable style, and the expression as such that his most intimate triends could not surges an improvement. I unbestatually pronounce it the finest like ness of Mr. Freimphaysea that I have even seen.

MILLARD FILLMORE.

This likeness will also be copied in the style above men towed, and furnished at the same prices.

tioned, and furnished at the same prices.

A beautiful STELL ENGRAVING from the above picture of Mr. Freinghupsen will be ready for sale in a few days, published by the subscribers. It will be furnished at the low price ANTHONY, EDWARDS & CO., 247 Broadway, N. Y.

247 Editors inserting the above advertisement, twice with

this notice, will be each entitled to one of the Clay or Freing huysen Breast-Pius. jyll Dtf HARPER & BROTHERS WILL PUBLISH, ON THURSDAY MORNING, THE SPOON:

No. 11. *.* TRANSACTIONS OF THE SOCIETY OF LITE-RARY AND SCIENTIFIC CHIFFONIERS: THE SPOON,' with up wards of One Hundred Illustrations.

BY HAB'K O. WESTMAN. MEMBER OF THE SOCIETY, &c. &c.
This work possesses a most interesting and humorous charge
ter, though it exhibits the profiuncest research, and an int mate knowledge of domestic manners, ancient and modern To be completed in four numbers at 25 cents each.

ON SATURDAY MORNING. A NEW AND BEAUTIFUL ROMANCE: THE GRANDFATHER.

BY THE LATE MISS ELLEN PICKERING.

THE GRUMBLER," that excellent and delightful novel, gives assurance of the superlative ments of the present work by the same gifted authores; and no one who reads both can avoid regretting the less which English literature has suffered in Miss Pickering's death.
